

An Inside Look

Incredible Cross-Sections

Biesty, Stephen

This book explores the innermost workings of some extraordinary buildings and machines. From helicopters to submarines, skyscrapers to coal mines, open up a fascinating world packed with unique and detailed cutaway drawings. There are lots of fun facts to be discovered, and curious details are highlighted and explained.

Hardback \$37.00

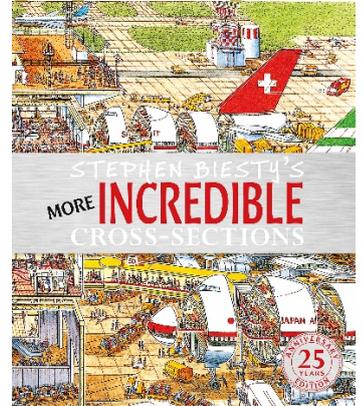

More Incredible Cross-Sections

Biesty, Stephen

This illustrated book shows you how things work. Look inside the human body, explore the magic of Venice, and take a tour around a movie studio - and much more! From windmills to cities, airports to space stations, *More Incredible Cross-Sections* is for curious minds of any age interested in finding out how our amazing world works.

Hardback \$37.00

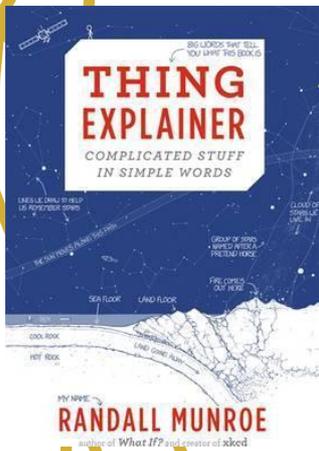

Thing Explainer: Complicated Stuff in Simple Words

Munroe, Randall

A series of brilliantly simple diagrams ('blueprints' if you want to be complicated about it) that show how important things work: from the nuclear bomb to the biro. It's good to know what the parts of a thing are called, but it's much more interesting to know what they do.

Hardback \$39.99

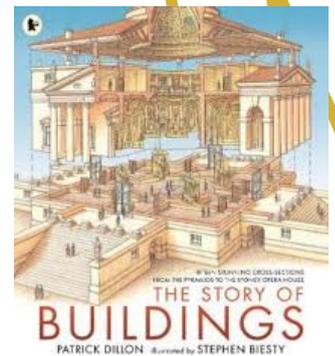

Story of Buildings

Dillon, Patrick

Biesty, Stephen

A book about architecture, lavishly illustrated with sixteen intricate cross-sections. From straw huts to skyscrapers, palaces to arts centres, you are taken on a journey across continents and over centuries. Sixteen of the most iconic buildings from around the world including the Parthenon, Notre Dame Cathedral and the Taj Mahal are featured and the remarkable human story behind each of them told.

Paperback \$22.99

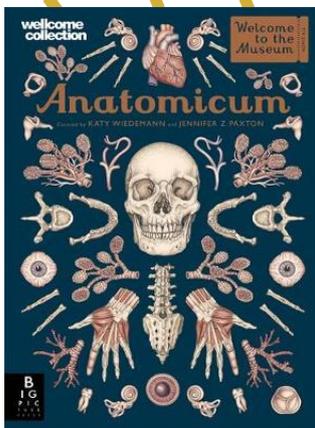

Anatomicum

Paxton, Jennifer Z

Wiedemann, Katy

Uncover the mysteries of anatomy, expertly curated to give you the experience of a museum exhibition from the comfort of your own home. *Anatomicum* guides readers through the organs and systems of the human body, from the muscles we use to show emotion, to the delicate workings of the brain. With expert text by anatomy professor Dr Jennifer Z Paxton, this encyclopaedic tome is a feast of anatomical knowledge.

Hardback \$49.99

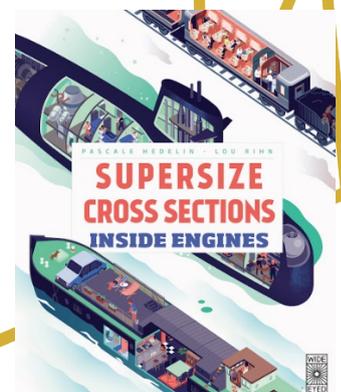

Inside Engines

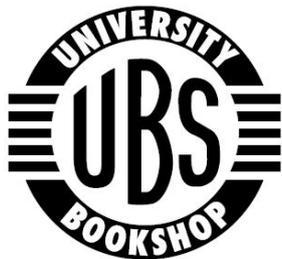

Hedelin, Pascale

Rhin, Lou

See inside a submarine, dive below the decks of a tall ship, take a tour inside a tank, explore a zeppelin and step on board a space station. Learn about the mechanics of each machine and explore the context in which they are used in this series of cutaway diagrams with explanatory caption texts throughout.
